

GLEICHEN CONSTITUENCY U. F. A. ASSOCIATION IN CONVENTION

Over one hundred enthusiastic delegates and visiting U. F. A. members met in Legion Hall at Strathmore, Wednesday afternoon July 18th in the annual convention of Gleichens Constituency Association.

President J. H. Schmidt of Bellevue was in the chair and secretary G. C. Melendy of Carleton Place recorded the proceedings.

A committee on credentials announced that 27 U. F. A. and 11 U. F. W. delegates were in attendance. A total of 11 regular delegates present. Well over sixty visitors from all parts of the constituency were also present.

Hon. F. S. Gaudin, minister of agriculture was introduced, as soon as the preliminary work of the convention was over and gave a most impressive, sincere and broad address on agricultural conditions in the province.

He struck a particularly high note in his address when he urged all U. F. A. associations to maintain a high level of political action in all their work, to prevent our aims and goals in a clear, high minded and constructive manner and to refrain from descending to the low levels adopted by our opponents.

Bellevue Local U. F. A. offered a resolution pledging our future candidate in this constituency to work for and support a system of social credit for the province of Alberta.

After discussion in which the wording of the resolution was somewhat altered, it was unanimously adopted by the convention.

John C. Gleichens, M. L. A. member for Bellevue, then gave a very clear and instructive talk on the resolution passed at the last session of provincial parliament. At the close of Mr. Gleichens' address an invitation to ask any questions on which the convention wished to be enlightened brought out but one minor question, showing that this association is heartily pleased with Mr. Gleichens' stewardship in the past.

After Mr. Gleichens' address the regular election of officers and directors took place, resulting as follows: President, J. H. Schmidt of Bellevue re-elected; Vice President Ralph Gleichens; Secretary, G. C. Melendy of Carleton Place; Directors: Fur Grasswood Municipality, A. L. Larsen; Strathmore, Carbon and

Norquay Municipalities, J. Leske of Bellevue; Fur Grasswood Municipality, J. H. Gleichens; for Kromia Municipality, C. O. Dawson of Norquay; for Shepard Municipality S. M. Newton of Edmonton and for Bow Valley Municipality, Bert Hoffman of Chadwell.

The meeting was adjourned at 6 p.m. after one of the best and most enthusiastic conventions ever held.

SEARCHING PARTIES STILL UNSUCCESSFUL

The suspense connected with the missing of Rev. Father McAdam, has brought very heartfelt concern, to all who were numbered among his acquaintances. Father McAdam was one of those gentlemen whose presence enriched and enabled the life of the community. He was beloved by his own parishioners and very highly respected by men in all walks of life.

He possessed a very keen intellect and books, reading and flowers formed his chief pleasures, outside his special parish work.

He was born in P.E. Island and educated at St. Bernard's Academy. He spent his early years in the West and for some time taught English in St. Mary's school, Calgary.

He has been Priest in charge of Strathmore, Carleton Place, and Langton for about five years.

In 1926 he was appointed Priest in charge of Strathmore, Carleton Place, and Langton, during the absence of Rev. Father Dugan. On the return of Father Dugan, Father McAdam was appointed to the charge of Vulcan. On the retirement of Father Dugan, in 1932 he was again placed in charge of the Strathmore district parish, in which he labored zealously. In the work of his church, still fulling health necessitated his being relieved of active work. Suffering from acute stomach trouble and extreme nervous strain, he went to the Banff hospital to recuperate. He enjoyed short strolls in the mountain paths, Banff is full of a beautiful place where one cannot find, could precipitate into an abyss, hundreds of feet below. Searching parties are still keeping of the hills, and it is very earnestly hoped they will be successful in being able to restore Father McAdam to his people.

RAJAH SINGHAM LECTURING IN EDMONTON

LETTER TO THE EDITOR

The Standard, Strathmore.
Rajah Singham, native of India is at present in Edmonton lecturing at the University and different churches on India.

This afternoon lecture at the Methodist hall dealt with West Meets East in India. Mr. Singham with his wide command of English and forceful delivery gave a careful analysis of conditions of the situations and problems involved when the East meets the West.

The lecture was introduced by showing

FINANCIAL POST AND
HON. H. H. STEVENS

The incident of the Richelieu Corporation can hardly be regarded as a success. The incident shown by the Minister of Trade and Commerce, Hon. H. H. Stevens in this matter is hardly calculated to win for him the reputation for sound business judgment that should be enjoyed by a politician undertaking to put all business under the microscope.

It has been shown by evidence presented to the House of Commons that the Richelieu Corporation was a practically insolvent, penniless dummy company, set up by three men in Montreal. They acquired two "tube-boats" whose seaworthiness was decidedly under suspicion. They then went to Ottawa and asked for a subsidy from the Government to install cable stials in the boats. For this purpose, they got some \$15,000 from Mr. Stevens. Making the best use of the fact that the Dominion Government had supported them, they induced a great many persons to ship with them and the net result to the farmers was a loss of some \$10,000 and bankruptcy for at least 20 of the shippers. Non-partisan representations made to Mr. Stevens brought the reply that the Government cannot assume any responsibility for the farmers' loss.

ing that some European men of ability have laboured to make the contact between these two civilizations a success. When the Englishman first came to India he came there with the idea of acquiring something for himself. The native took an antagonistic attitude towards the Britisher and other European and called him, the man without a brain. Eventually however he found out that the Western education was superior to his own and began to imitate it. He imitated the Western in his educational system, in his business and in his way of thinking.

Rajah Singham who at one time has been affected by the two phases of Hindoo life just dealt with. The Hindoo Hindu youth of today is seeking for a solution of her problems. He believes that Western Education supplemented by Eastern culture can be blended into a true international relationship of understanding. Be a Canadian, live up to your virtues, I will be the same. Let us take the best out of both and my civilization and we will live harmoniously in peace and understanding.

Mr. Singham emphatically stated that the woman's place was in the home. This must not be translated in terms of men and men's homes in a place where the sweet, wholesome dominating influence of the mother builds up virtue and character. Let her have access to the higher things in life to music and to art. A remarkable feature of Hindoo life the speaker stated was that the average woman of Hindoo life was a mother. The last three years however, the women have progressed as far in this as the men progressed in fifty years. They were educated and they were that they would become revolution aries.

Mr. Singham holds all life sacred. Religion does not mean the state of keeping one day a week holy. If that were the case he wanted none of it. He spoke of Christ as Life. A power that helped every individual who was lost in him to become a light giving life of service and happy living.

NO MORE SLUMS, BRITISH SLOGAN IN 5-YEAR PLAN

London:— "Better houses in which to live for all citizens of this country," is declared in a remarkable government statement here as the first of a series of new proposals for immediate action. For this purpose the number of persons allowed to live in any particular accommodation is to be limited.

A total of 28,000 slum houses are in course of being swept away; 294,000 other houses are being taken down. The end of five years the Government claims there will be no more slums except in a few towns where longer periods are necessary.

WORLD'S LONGEST UNDER-WATER ROAD

The tunnel is named the Queens Way in honor of the Queen.

It was conservatively estimated that more than a million persons will be able to use the tunnel. The tunnel has been under construction for nine years, outside of the actual boring the chief difficulty encountered being that of ventilation. The total cost is estimated at 25 million dollars. The tunnel contains a three mile roadway of special cast-iron sections.

Samuel Gillingham of Birkbehead, 82 years old, who lived in Canada for 40 years had the honor of being presented to the King and Queen at the formal opening of the new tunnel. Gillingham learned of the arrangement last night and he said he was quite startled when he saw the Queen and the King at the opening of the tunnel. He studied electricity under Michael Faraday.

A terrific electric and rain storm bombarded the train in which the King and Queen spent the night side tracked at London waiting today's dedication ceremonies for the new Mersey tunnel.

LIBERAL CONFERENCE IN CALGARY AUGUST 6 & 7

The object of these conferences is, as the Saskatoon Star-Phoenix has recently so aptly expressed it "to seek to know the will of the people and providing the party with the various views of the different parts of the country," and allowing the two wide and comprehensive policy of the good of the whole province. What policy may be once political creed it will be readily admitted by all that the holding of such meetings is a move in the right direction. All reform have originated amongst the people, and the present is the one time for a full and frank discussion by all forward looking group of the Liberal problems in search of solutions for them. Such an opportunity is being furnished by Mr. W. R. Howison, M. L. A. the Leader of the Liberal Party in Alberta, by this series of Economic Conferences.

The area that the Calgary Conference will serve is Red Deer to the

north to Macleod on the south, and from Brooks and Bassano on the east to the Rocky Mountains. It is expected that the Liberal members within this district will be represented at the conference, so as to present their views and what the Liberal members of the Legislative Assembly, all of whom will be present, a statement of their respective will be readily admitted by all that the holding of such meetings is a move in the right direction. Annual Field Day

The annual field day and picnic at
the School of Agriculture, Okla., will
be held on Saturday, July 28th, when
visitors will be taken over the field
and forage crop plots and also be
shown the herds of Shorthorn, Ay-
shire and Guernsey cattle, as well as
the horses, sheep and swine.

Fred V. Stone, of Alis, native Al-
bertan, and honour graduate of Mc-
Gill University in economics and po-
litical science, has been appointed se-
cretary to premier R.G. Reid. Mr.

in research work in Alberta for the
McGill social science department. He
won a name for himself as a university
debater, and last year received his
degree of master of arts from McGill.

Officials of the federal and provin-
cial departments of agriculture work-
ing in the grasshopper campaign in
Alberta have issued a strong appeal
to farmers in the infested areas to re-
double their efforts during the next
few weeks, declaring that the critical
point has now been reached. "There
is a general impression that poison-
ing operations can no longer be car-
ried on to advantage," declares H. L.
Seaman, of the dominion entomologi-
cal service at Lethbridge, who has
been working in cooperation with the
provincial field crop branch, who
have been directing the campaign against
the hoppers. "Time spent on
sweeping bait" during July and Aug-
ust is well repaid, not only in actual
crop saving but in reducing the hopper
menace next year." But mixing
stations which have been operating
will be kept open state provincial of-
ficials, and bait will be available with
out charge for any who will use it.

Three important seed train field
days will be held in the province dur-
ing August, one at Vermilion, Aug.
2; at Carleton Place, Aug. 3; and at Oke-
ana, Aug. 10. These are held under the
auspices of the provincial department
of agriculture and dominion seed
branch, co-operating with the Al-
berta wheat pool, the Canada milling
Co., the U.G.O. and the Western Cana-
dian Flour Mills. Samples of grain
from seed drills of farmers in various
districts were collected this spring,
and these samples have been grown
in plots at the schools of agriculture
and will be inspected on the field days
thus giving an opportunity for all con-
cerned to note the kind and quality of
seed.

HAVE YOU ANY

CANADIAN THISTLE?

An Edmonton dispatch gives the
following interesting statement:
Following a series of experiments
over a term of years farmers in the
St. Albert district believe they have
at last solved the problem of ridding
their land of Canadian thistles.

All it means is that by cutting,
pulling or plowing under in the
dark of the moon, in July and Aug-
ust they can free the land of this
farmers' curse.

The seven centre days of the last
quarter of the moon is the time they
have decided for the attack on the
thistle, and preferably the centre
three days of the seven.

The work to be effective, must be
done rain or shine, and if summer
fallowing is being carried out the
cultivator must be put through the
land a little deeper than would be the
case in plowing. In order to get the
best results the work must not be
completed in the period mentioned.

It is stated that this holds good for
any weeds, and farmers who have
watched the experiment closely say it
is effective.

Make Homesteaders Preserve Trees

Consideration is being given by the
provincial government to enactment
of regulations compelling homestead-
ers to retain on their land a portion
of the natural timber, according to
Premier R. G. Reid. This work will

tion policies adopted by the premier
when he took over the then newly
formed lands and mines department,
in 1929.

Between one hundred and fifty and two hundred members of the British food distributive trades of Great Britain will visit Canada in August. They will be the guests of the Toronto Exhibition authorities at the end of the month and their visit will be of great importance to Canadian producers. In the party will be principals or representatives of the largest buying organizations in the British Isles. Their visit to the Exhibition will enable the most noted leading growers and packers of food products in Canada.

The purpose of the tour is to give to representatives of the distributive food trades of Great Britain an insight into the methods by which primary and secondary foodstuffs destined for the British market are prepared, packed and transported.

Not only, however, will the British distributor be able to learn at first hand a great deal of the actual and potential productivity of Canada, he will be able also to give the Canadian producer personally the benefit of his criticism, specialized knowledge and advice. This will be of inestimable value, authorities state, to Canadians who are anxious to adapt their products to the special needs of the British market.

Known as The Maple Leaf Tour, the project was organized by the High Commissioner of Canada in London.

Indeed, exclaimed the lady visitor. And pray, why is that Clifford. Cause that's the only time we have it, replied the truthful lad.

Captain of Cricket Team (to new resident): Will you join our cricket club, sir?

New Resident—Well really, I'm afraid I know absolutely nothing about the game. I couldn't do anything except umpire.

A misanthropic farmer was trying to make a new hired man at a time.

"What are we going to do today boss?" he yawned.

"Harvest oats the farmer replied.

"Are they wild?"

"Nothing, wild about them that I know of. Why do you ask that?"

The hired man was puzzled. "If they're not wild, he enquired why do we have to sneak up on 'em in the dark?"
